### CONTACT

+91-9039331441

vishalsharma331441@gmail.com

Ujjain, Madhya Pradesh, INDIA

### EDUCATION

#### Full Stack Development

Masai School  
April(2022) - December(2022)

#### Bachelor Of Engineering

Mahalal Institute Of Technology  
2013 (June) - 2017 (June)

### TECH-SKILLS

- MERN Stack
- Data Structures And Algorithms
- Design and Calculation
- Security Analyst
- Mongoose
- HTML and CSS
- Postman
- Creo

### SOFT-SKILLS

Leadership | Team Player |  
Communication | Problem-  
Solving Mindset | Adaptability.

### HOBBIES

- Sketching
- Driving

### CERTIFICATES

JavaScript Advanced  
Certification by Programming  
Hub

- Certificate ID:1614865072677
- Grated on 4 March, 2021

#### BEWAKOOF.COM (FULL-STACK) |

Individual Project | 10-days

Bewakoof is a fashion e-commerce website that offers a trendy collection of apparel based on dazzling and upbeat designs.

**Tech Stack:** React | Redux | Typescript | Chakra UI | Nodejs | mongoDB | mongoose.

##### Features:

Front-end:  **github**

- Validation, Authentication, and Authorization.
- View Products as a guest, Search-Bar, Sorting, Filtering, Payment-methods.
- Add-to-Cart | Add-to-Wishlist | Order-Details | Handle-Account | Address.
- Role-based access control (Admin, Users, Merchant).
- Admin-dashboard, and Merchant-dashboard where you can apply CRUD functionality and trace the order details, total revenue, date of purchase, etc.

Back-end:  **github**

- Validation, Authentication, and Authorization for role-based access.
- **JWT** token for token creation, and **bcrypt** for encoding and decoding passwords.
- **Dotenv** for storing Secret-keys and links.
- Follow the MVC pattern for backend structure, and use MongoDB to store data and mongoose to connect the database with the backend.
- Create different routes for role-based (Admin, Merchants, and Users).

##### Areas of responsibility:

- Own the entire project.
- Established remote deployment using Netlify for front-end and Cyclic for back-end.

#### BEAUTY HOLIC.COM (FULL-STACK) | | **github**

Group Project | 5-days | 5Members

Beautyholic is India's fastest growing online retail store for the day to day and special occasion need of the Makeup, Skin care, Hair care, Personal care, Mom and Baby care, Fragrance and Ayurveda products.

**Tech Stack:** React | Redux | Javascript | Chakra UI | Nodejs | mongoDB | mongoose.

##### Features:

- Build the products booking process from scratch till ordered.
- Authentication and Authorization on different pages.
- Search-bar, Sorting, Filtering, Responsiveness, Payment-methods, Cart.

##### Areas of responsibility:

- Validation, Authentication, Authorization, and Following MVC pattern.
- **JWT** token for token creation, **bcrypt** for encoding and decoding passwords, and **Dotenv** for storing Secret-keys and links.
- MongoDB to store data and mongoose for the established connection.
- Established remote deployment using Render.

## ACHIEVEMENTS

- Got 16th rank in the Go-Kart Championship of ISNEE (Indian Society of New Era Engineers) held at Kari Speed Motorway, Coimbatore, under my Leadership
- Captain of the college cricket team.
